

Lack of barge-/rail capacities on all relations from and to the western ports (Antwerp & Rotterdam)

Please be advised that due to the extreme weather conditions (high temperatures) for the past weeks and for the upcoming week, we need you to inform that all barge connections on the Rhine River from/ to Antwerp and Rotterdam are congested because of Low Water.

Because of a fire at the rail intersection in Venlo (NL), transportation by rail is affected by delays and reduced capacities.

Existing demands are shifted to movement by Truck, but also these capacities are very limited.

We kindly ask you to book your cargo as early as possible, so that delays can be avoided.

For any further information please do not hesitate to contact us at any time.

Kind regards
