

## Capacity shortage at HHLA Container Terminal Altenwerder (CTA) and Container Terminal Burchardkai (CTB)

Currently we receive many notifications that only a limited number container can be accepted at CTA/CTB terminal in Hamburg due to weather conditions.

Due to the continuous storm further ship delays are occurring. This leads to a high utilization of the storage capacities at CTA. So far HHLA has been able to control further container volumes at CTA by internal measures.

Now, HHLA will have to restrict all deliveries of hazardous boxes from 20.02.2020 onwards. Therefore, delivery of hazardous containers will be possible at the earliest at CTA 72 hours before arrival of the booked ship. Exceptions are active IMO reefers.

For CTB Terminal hazardous, harmless and reefer container will be accepted earliest 48 hours before arrival of the booked ship.

For any further information please do not hesitate to contact us at any time.

**Kind regards**
